Engineer
Full Stack Developer
(Medical Devices and In-Vitro Diagnostic Devices)

JOB DESCRIPTION

The Software Engineer (Full Stack Development) is responsible for designing, developing, and maintaining dynamic, user-friendly websites and web applications. Proficiency in both front-end and back-end technologies (such as JavaScript, HTML/CSS, PHP and databases) is essential. Experience with cloud platforms, API integration and responsive design is preferred.

QUALIFICATIONS & KEY SKILLS

- Bachelor's Degree in Engineering or Computer Science
- 2+ Years of Experience in the relevant field.
- Ability to optimise application performance and responses.
- Ensure compliance with coding standards, data security, and documentation.
- Understanding of web development frameworks (Microsoft .NET).
- Hands-on experience in web development and ERP.

WHAT ARE WE LOOKING FOR

- Immediate joining (preferable).
- Documentation and compliance as per relevant ISO standards.
- Analytical & critical thinking ability.

JOB TYPE AND LOCATION
Full time onsite at mPragati, IIT Delhi

Remuneration is based on experience and at par with Industry Standards.
